```
D9                          C                 G9
It's not about… how many songs I sing
D9                           C                  G9
It's not about the style of music that I bring
A5                                        G9               D9
Worship is more than hymns and choruses and parts
A5                                        G9               D9
You're more concerned with the condition of my heart

                D9 ///  C /   G9 /    D9 ///  C /   G9 /
                Oh… holy Lord     Oh… holy Lord
```

Verse 2

```

It's not about a preaching style to hear

It's not about traditions I hold dear
A5                                        G9               D9

A heart that praises You like David as he danced
```

```
    F#m7         G9              D9
So I bow …   down …  before You

Lord let me say … that I … adore You
            F#m7          G9                   D9
Help me put aside …  all my foolish pride
            C                                  G9
Lord I'm sorry I let things become the idols I have served

My hearts only desire is to offer You the worship You deserve
